

OSHA's preferred delivery method is through standard in-person classroom instruction. Outreach Training Program training conducted through remote-site video conferencing or other live, interactive instruction, that is not standard in-person classroom instruction, is not allowed unless OSHA or the OSHA Education Center Region 1 has granted a written exception for the conduct of such training.

To request an exception for video conferencing, a written request must be submitted by the Outreach Training Program trainer to the OSHA Education Center Region 1 at least 60 calendar days in advance of the scheduled training start date.

Exceptions may be authorized for a designated time period, not to exceed 12 consecutive months.

The written request must be sent to the OSHA Education Center and include the following:
A statement indicating why the trainer believes an exception is necessary. Name(s) of the primary Outreach Training Program trainer and assistant Outreach Training Program trainers or guest trainers who will conduct the training.
A copy of the relevant Outreach Training Program trainer card(s). Documentation for all trainers (primary, assistant, and guest) of prior experience delivering occupational safety and health training via video conferencing, webinar, or other instruction that is not standard in-person classroom instruction, including topics, number of courses delivered, and number of students trained.
The type of hardware, software, and/or systems students will utilize to participate in the alternative training method.
Location of the origin training site and the type of hardware, software, or system that will be used at the origin training site.
List of the offsite training locations. Students must receive training in a classroom, auditorium or conference room setting.
The primary Outreach Training Program trainer must ensure that a proctor is present at each training location. The proctor will monitor consistent attendance, and collect daily student sign-in sheets. The proctor's printed first and last name, and signature must appear on the sign-insheets.
A course outline which indicates each topic, and the length of time for which each topic will be taught.
